KNOW YOUR RIGHTS AS AN INSURED MOTORIST IN ONTARIO

1. Do I have the right to select the shop that will repair my car?

YES. In order to expedite your claim, select the repair shop and notify your insurance agent or company.

2. Do I need to get three estimates?

NO. Do not waste your time and that of several repair shops getting estimates. Select your repair facility and notify your agent or insurance adjuster will need to inspect the damage. Some insurance agents may tell you to get two or three estimates. Talk to your insurance adjuster first. Generally, claims are handled by the company's claims department, not the agents.

3. Must I notify my insurance company before repairs?

YES. Insurance policies require that you notify the insurance company or your agent. Make a report and tell them where the damaged vehicle can be inspected.

4. Who is responsible for the repairs?

THE AUTO BODY SHOP.

That is why it is important that you select a repair facility that is properly **TRAINED** and **EQUIPPED** to restore your automobile to its pre-accident condition.
